

Treasurer

If given the opportunity to serve as the Treasurer for CAPFAA, I am confident in my ability to contribute to the organization. With over 12 years in higher education financial aid, spanning both private and public institutions, I've supported thousands of students throughout their academic journey by ensuring a smooth financial process. This work experience, coupled with my educational background in accounting, uniquely positions me to advocate for effective financial management in the Treasurer role, prioritizing resources that will help benefit the organization and the Connecticut student community.
